REPLACEABLE, FAST CHARGING WITH UP TO **2 HOURS** RUN TIME LITHIUM ION BATTERY WEIGHS 385GRAMS

Here's what professional dog groomers have to say about the Oster Pro3000i Clipper

As a groomer of over 2 decades, I've certainly used various corded and cordless clippers over the years. I like the freedom of cordless clippers, but need to have the same power that the corded clippers produce. I have found in the past other brands of cordless clippers have lacked the stamina. I am so impressed with the power of the Oster Pro3000i that I have now put away my corded clippers as I find the motor in these great cordless clippers is now all I need. The clipper itself is very easy to handle and the performance speaks for itself. The clipper feels very comfortable in the hand, and what really impresses me is the run time. The fact that the clipper does not lose power when the battery is low, rather it simply shuts itself off is a plus also. Quick enough to charge, and easy to handle. The Oster Pro3000i are the perfect piece of equipment for every groomer's toolbox. Love my Oster Pro3000i they are my "Go to" clippers."

Vanessa Parsons - Country Canines Grooming & Clipping Salon, QLD

For performance and reliability in my profession I need tools I can trust with confidence to deliver. The Oster 3000i ticks all my needs. It's weight to sit lightly in my hand, it's battery life for time saving, it's durability for reassurance of job completion are a couple of advantages of this great Clipper.

Helen Forester, K9 STYLE Dog Grooming & Groomer Training, W.A

Very excited to be able to add another Oster 3000i cordless clipper to our team of wonderful groomers in my salon. When my salon changed from corded clippers to cordless I was excited to offer my staff the opportunity to make work enjoyable and not having to worry about the dangers of leads around the table, dogs and other tools. The 3000i was my choice of clipper after trailing a few different cordless as we found they were super fast, more comfortable in our hands had faster recharge time and longer lasting running time. I have been using this work horse for over 3 years in my salon and proud to say we still love them as much as the first day they arrived.

Sharon Hall, Snuggle Pup & Pooch, NSW

I love the Oster pro 3000i it's powerful yet light weight, the battery lasts me a full day and the ergonomic design relieves my wrist pain. It's the clipper I recommend to all my students.

Naomi Conroy - Puppooe Pet Boutique, NSW

Oster 3000i cordless clipper they are the only cordless clipper I feel comfortable using, the quality and power can not be surpassed.

Monique Finch, Monique Stylist to the Dogs, QLD

I love the fast speed and power of the Oster 3000i cordless clipper and the well balance hand piece. I highly recommend.

Melanie Newman, from Melanie Newman Salon Essentials VIC

The power behind the Oster 3000i makes clipping all day long a breeze! The elegant, sleek look of a trimmer, but behind that pretty face is a workhorse ready to make every clip easier through maneuverability and speed. After using the highest achieving competitors, the 3000i was the only one to match power with long battery life, all in a light package too. I'm especially happy with the small charging cradle, which takes up very little room in my station. Oster delivers once again, matching my needs with the best equipment available.

Bethany Aberdour, Touch of Pawfection, QLD
